## 6.2 Does the Institution has a management Information System

The institute does not have a MIS

## 6.3 Quality improvement strategies adopted by the institution for each of the following:

### 6.3.1 Curriculum Development

The institution implements the curriculum designed by parent university. Our staff members are working on different academic bodies to design the curriculum. Our teachers suggest their modifications to enrich the curriculum via principal to the university as per their experiences and difficulties for the benefit of the students. CBCS pattern is continued by the university and a new Skill Enhancement Course is introduced to B.Sc. II year students.

### 6.3.2 Teaching and Learning

**Teaching :** As an affiliated college the institution conform to the academic calendar issued by parent university. The faculties have been instructed to stick on to the academic schedule of the university. Portions allotted to individual teachers are monitored periodically and internal evaluation is conducted as stipulated by the university. Results of the internal exams are forwarded to the university, valued and corrected answer sheets are circulated among the students for perusal, doubts are cleared and deficiencies are pointed out.

The college follows a well planned schedule. Academic calendar of the college that depicts schedules of classes and examinations is prepared through the meeting of the heads of various departments and the principal of the college. With regard to Teaching Plan, each department prepares modules for syllabus for two semesters, from the beginning of June to October and from November to April.

The modules are distributed among the teachers well conversant to the respective modules. Each teacher makes his own teaching plan.

The teachers also maintain records of the syllabus completed during the scheduled period. And at the end of semester, they produce Syllabus Completion Certificates to the office.

#### **Learning:**

Lal Bahadur Shastri Mahavidyalaya is located in a socially, economically and educationally backward area, and a majority of our students are from economically and educationally backward families and from rural areas. A realistic assessment of factors such as the quantum of previously acquired knowledge and caliber of the students, and the range of locally available learning resources, has dissuaded us from being mere 'facilitators' in the classroom. A general consensus has been evolved among the faculty that a thorough foundation of subject awareness shall be laid in the learners through traditional methods of class-room lecture. An institutional mechanism has been facilitated through the practice of seminar preparation and presentation as a collective effort by a group of students. UG and PG students of all Departments are required to complete a project work.

### 6.3.3 Examination and Evaluation

Every student has to appear for internal examination to be conducted twice in a semester. First test is carried out in the month of August. Second in the month of October. In the Month of January third and in the month of March, fourth test is engaged. The nature of the question papers set for these examinations is in line with SRTMU, Nanded.

According to Swami Ramanand Teerth Marathwada University Rule, a U.G. and PG student has to get 75% attendance to qualify for the final examination. This criterion is well publicized through prospectus. The attendance of students is taken daily.

The Institution maintains regular contact with the University administration by regularly attending meetings regarding examinations. Faculty members are appointed as paper setters, moderators and/or examiners. Some of the teachers as the member of the Board of Studies, Senate, Faculty, BOE etc. express and exchange views with teachers of the University and other colleges. The College administration implements the reforms through the University Examination Committee.

**Evaluation process:** for Every internal test of 30 Marks which then gets converted into 10 (and 20marks for languages). The internal marks of the students are given on the basis of his/her performance in these tests. University conducts examination twice in a year and declares the result in the stipulated time.

Individually teachers interact with specific groups of students, and support them mentally, morally and materially for their further improvement in examination.
